

LifeGroup Questions for the week of February 4, 2017
“Genesis: Gospel Foundations” - Genesis 1:1

1. Why is the book of Genesis so important? Why is it so controversial?
2. How might a study of the book of Genesis impact our lives? What might be some of the challenges of a study like this?
3. When studying the Bible, why is it unhelpful to *begin* with what scientists say? How might we be tempted to change our interpretation of the Bible in light of current scientific opinion? Why do this matter?
4. How does a study of the book of Genesis help us to understand God better? How will it help us understand Jesus better?
5. What can we learn from Paul’s presentation of the gospel in Acts 17:22-31? Why is creation an important starting point?
